Case Study

Our Client:
The Royal Troon Golf Club

Contractor:
J C Morton Homes

Architects:
Lawrence McPherson Associates
New facelift for The Royal Troon Golf Club

The Royal Troon Golf Club has a rich history having been founded in 1878 and known as the Troon Golf Club before receiving Royal patronage in 1978. In 1942, during the war years, the Clubhouse served the Admiralty and until the end of war it was used as an Operations Head Quarters being name HMS Gannet.

The Club motto in Latin’s closest translation is “It is as much by skill than strength” and the club has witnessed this skill on many grand occasions, having hosted eight open championships, six amateur Championships and one senior championship to date. The course record is jointly held by Tiger Woods 1997 and Greg Norman 1989 with a score of 64.

The club is to proudly host the Open Championship yet again in 2016 and although some refurbishment had been done in the past, problems had been experienced with heating and noisy air-conditioning. This had caused disruption to the golfers all due to the thermal inefficiency of the windows. Many of the windows were not operational and the decision was taken to replace the windows in three quarters of the building including the restaurant, new club bar, smoking room, gentlemen’s changing rooms and three impressive windows in the Captains Locker Room. The window construction was behind the original stone mullions. It was a match made in heaven when a good customer, also a club member, recommended Masterframe to the Architects, Lawrence McPherson Associates and the club as the potential window manufacturer to supply J C Morton Homes who had won the contract.

The Managing Director and Owner of Masterframe, Alan Burgess has this to say “As a company, sash windows is all we do and we are proud of wood have stated they were wrong and have indicated that the quality of the windows and the fitting has been an outstanding success.”

Masterframe Windows feels privileged to have supplied Royal Troon with the perfect solution in sash windows and the club is delighted with the result. Together, the tasteful and elegant internal refurbishment, coupled with the new sash windows reflects the club’s original character and traditions like never before. Royal Troon is now looking its best, at the top of its game and all set to welcome the world’s top golfers at the Open in 2016.

Masterframe is focused on supplying world class sash windows in unique, classical and beautiful styles that carry the highest accreditations, with all the attributes of contemporary windows backed up by outstanding guarantees and customer service excellence.

Passionate about innovation, the team is first to market with new designs whilst constantly enhancing product to reflect current trends that differentiate the windows in a highly competitive sector thereby building market share.
