

South Lakes Windows: delivering exceptional customer service and high- quality window installations

Established in April 2009 by Jackie and Steven, South Lakes Windows began as a small, family-rooted business with a clear focus: delivering exceptional customer service and high-quality window installations. With Steven's strong background in sales for a local window installer and Jackie's deep industry roots—having grown up around family-run double glazing businesses—the foundation was set for a company built on trust, craftsmanship, and community values.

From humble beginnings—with just the two founders, Lynne, and one fitting team—South Lakes Windows quickly became a household name across the South Lakes region. Thanks to strong word-of-mouth recommendations and consistent showroom traffic, the company has grown steadily, all while maintaining its commitment to excellence.

Now supported by four strong, time-served fitting teams and a dedicated customer service team, South Lakes Windows continues to go from strength to strength. The growth has never come at the cost of quality; instead, it's reinforced the company's ability to deliver reliable, top-tier installations with personal attention.

WHY CHOOSE SOUTH LAKES WINDOWS

At the heart of our business is a dedication to supplying only the best products to our customers. That's why Masterframe was the natural choice when selecting a premium Vertical Sliding Sash window supplier. With many of the properties we work on located within conservation areas near the Lake District, having a supplier that understands the importance of both aesthetics and regulation compliance is key.

One such long-term project is the restoration work at Boarbank Hall Nursing Home, which began in 2013 and is being completed in carefully planned stages—the most recent phase wrapped up in December. The result is a beautifully enhanced property that respects its historic character while benefiting from modern performance.

We're proud of the strong supplier relationships that help us deliver top-tier results to our customers, and we look forward to continuing this journey of quality and care together.
